## ROLLS RENEWABLE

## PRODUCT OF CANADA

## WORLD CLASS BATTERY ENGINEERING

**Rolls batteries are manufactured in Nova Scotia, Canada by the Surrette battery company, who have been in the battery manufacturing business since 1935.**

Rolls batteries specialise in the production of deep cycle batteries for many market sectors in particular Renewable Energy and Remote Stand By Power operations.

Relied on worldwide, our batteries are internationally recognised for their dependability and rugged construction providing energy storage in the most challenging environments. It is not just the outstanding quality of our batteries that we are so well known for but also our continual advances in process, dedicated work force and unrivalled commitment to sustainability.

Rolls has an extensive product portfolio with both Flooded and AGM deep cycle battery ranges. We offer some distinctive advantages to our customers –

- **Premium Battery Brand**
- **Excellent Stock Availability**
- **Fast Order Processing & Delivery**
- **Technical Back Up & System Support**
- **Competitive Commercial Terms**
- **Controlled Distribution Channels**

## USED IN SYSTEMS AROUND THE WORLD

**Rolls premium deep cycle batteries have earned a reputation of reliability and dependability in the renewable energy market.**

Dual container construction, high-density polyethylene materials and unique “resitox” plate design provide a life expectancy that is among the longest in the battery industry.

Rolls has been the battery of choice for thousands of system installations around the world in some of the harshest environments on the planet, it is our customers that give us this well-earned reputation.

We work closely with distributors and system integrators to ensure perfect product synergy with all leading inverter/charger manufacturers including SMA, Outback, Studer, Victron and Mastervolt to name a few.

Projects have ranged from remote village electrification in Africa and South America to large community Island systems in Scotland and the South Atlantic. Renewable energy and stand by power systems installed in the Middle East and for telecoms in Scandinavia, the list goes on...

We understand the reliance on quality components and system balance in any off grid and stand by power environment and fully appreciate the importance batteries have to the success of any remote based project.

# 4000 SERIES

## Rolls Flooded 4000 Series Batteries

The Rolls 4000 series batteries are available in 2V, 6V or 12V configuration and offer a wide range of capacities. They have a long life expectancy and one of the longest warranty periods available.

### Features:

- **Thick Plate Design**
- **Highest Density Active Material**
- **Envelope Separators**
- **Increase Liquid Reserve**
- **Greater Rigidity**
- **Greater Durability**
- **Less Maintenance**

**4000 Series - 7 Year Warranty**

Part Number	Voltage	Capacity in Ah			Dimensions (mm) L x W x H	Weight Dry (Kg)	Weight Wet (Kg)
		C100	C20	C10

# 4500 SERIES

## Rolls Flooded 4500 Series Batteries

Rolls 4500 Series batteries provide the convenience and portability of our most popular L16 4000 Series models, combined with the extended capacity and cycle life found in the heavy duty 5000 Series batteries.

**4500 Series - 7 Year Warranty**

Part Number	Voltage	Capacity in Ah			Dimensions (mm) L x W x H	Dry Weight (Kg)	Wet Weight (Kg)
		C100	C20	C10			
<b>4500 SERIES - 2 VOLT</b>

<b>4500 SERIES - 6 VOLT</b>							
S-500EX	6V	503	357	296	321 x 185 x 426	45.0	59.0

### Features:

- **Water-Miser Fitted As Standard**
- **Compact Design - For Easy Handling and Installation**
- **Superior Cycling Performance - 2720 @ 50% D.O.D**
- **Extended Warranty For Maximum System Durability**
- **Rugged Plate Construction With Resistox Technology**
- **Full Pocket Enveloped Wrapped Positive Plates**
- **High Density Active Material Compound**

**Cycle Life vs. Depth of Discharge**

## ACCESSORIES

### Water-Miser

- Reduce Water Loss by up to 60%
- No Need To Ever Remove Caps
- Less Battery Maintenance
- Flame Retardent Characteristics

### Maintenance Kit

- Distilled Water Dispenser
- Hydrometer
- PVC Apron
- Eye Wash
- PVC Gauntlet
- Safety Goggles
- Hazardous Sign
- Digital Multimeter

### Battery Accessories

- Nuts and Bolts
- Battery Link Leads
- Terminal Covers

### System Components

- Terminal Fuse Blocks
- CableCap Insulators
- Plus much more available...

# 5000 SERIES

## Rolls Flooded 5000 Series Batteries

Rolls 5000 series batteries incorporate a new plate design with a larger surface area and higher density paste, providing increased performance for high current applications. Powerful and dependable, these models provide power for a wide range of renewable systems.

### Features:

- **Water-Miser Fitted As Standard**
- **Dual Container Construction**
- **Thick Plate Design**
- **Highest Density Active Material**
- **Envelope Separators**
- **Increase Liquid Reserve**
- **Eliminate Stray Current**
- **No Acid Leakage**

**5000 Series - 10 Year Warranty**

# AGM SERIES 2

## Rolls AGM Series 2

A dual purpose sealed maintenance free AGM battery this range offers both outstanding value and performance. The Series 2 range has all the leading design features associated with AGM technology offering the user both a lower self-discharge and an increased acceptance to charge current than conventional flooded wet batteries.

These batteries offer the perfect solution when looking to replace wet batteries or upgrade existing sealed batteries. Fitted with high grade brass and lead terminals and featuring convenient carry handles they also make use of a thick plate design and micro porous glass matt separator to deliver a high deep cycle rate and longer life.

### Features:

- **Cycle Performance - 800 Cycles at 50% Discharge**
- **ABS Case & Cover Design – Shock & Vibration Resistant**
- **Sealed Construction – Maintenance Free**
- **Low Internal Resistance – Faster Recharge**
- **Standard Sizes Available – Popular 12v Models**

**AGM Series - 2 Year Warranty**

# AGM SERIES 5

## Rolls AGM Series 5 Batteries

Rolls has designed a Deep Cycle VRLA battery with high reserve capacity, long cycle life and low internal resistance, while achieving superior cranking performance. Rolls AGM batteries are the smart choice for demanding renewable applications.

They are designed and built differently than standard batteries. They use more lead, heavier plates and other proprietary materials that enable them to deliver more power and capacity over many life cycles.

### Features:

- **Sealed Construction - Maintenance Free**
- **High Density Plate - High Capacity**
- **Heavy Duty Thick Grids - True Deep Cycle Construction**
- **ABS Case and Cover - Shock and Vibration Resistant**
- **Low Internal Resistance - Faster Recharge**
- **Microporous Glass Matt Separator - Enhanced Electrolyte Retention**
- **All Standard Sizes Available - For All Application Requirements**

**AGM Series - 5 Year Warranty**
